We can not give an opinion on the car park options as we have not been given sufficient information and the time is so limited. This should have been advertised much sooner and having it only on the internet does not fit in with everyone. Some do not have the internet and some not even have a computer.
Why only theatre extension on the Civic Centre as that hall is much too small for most functions. Air conditioning is a necessity in that building.

Civic Centre Site Option

We disagree with the proposal to re-site the Baby Health Centre at the rear of the Red Cross Hall. This is an essential area for the gathering of service and ex service personnel on occasions of commemorations and public gatherings. It is also a busy picnic area and playground for children.
Access to this area at the conclusion of marches is at the rear of the Red Cross Hall from Greenway Lane and it would be impossible for such a large crowd to enter at the front of the Red Cross Hall. We also believe that this park, which was given to the public, is gradually being eroded.
